OF FISCAL YEAR 2015 GRADUATES**

**Introduction**

As part of an ongoing accountability and program improvement initiative, Lincoln Land Community College annually conducts a survey of occupational program graduates. This report provides information on graduates of occupational programs regarding the effectiveness of their community college experiences. Graduates are asked to complete a standardized survey instrument that addresses attendance objective, education status, employment status, salary, employment start-up, geographic location of employment, and satisfaction with employment and components of the educational program completed. Data gathered from these surveys provide valuable information for the College's program review process and assists the College in providing satisfactory employment and compensation for their graduates.

The Illinois Community College Board identifies the programs that must be included at each local campus. Lincoln Land Community College elects to include all occupational programs in the follow-up survey. Former students who completed occupational programs during fiscal year 2015 (summer term 2014, fall term 2014, or spring term 2015) were mailed and emailed surveys. If a graduate did not respond to the initial questionnaire, a second survey was forwarded.

A total of 996 LLCC former students were surveyed in March 2016. Three hundred seven persons responded, yielding a response rate of 30.82 percent. Graduates from the programs that ICCB identified as required for fiscal year 2015 accounted for 143 of the surveyed graduates and 73 of the responses, yielding a response rate of fifty-one percent. Because ICCB requires a minimum of 50% response rate on their specified programs, additional effort was made to contact those students. After the initial two LLCC mailings/emails, LLCC department staff made additional attempts to reach these students. A final effort was made through phone calls by contracting with a research firm.

Because overall results are influenced by program size, the data reported in Tables 1 - 13 are provided by program category. Table totals will vary due to some respondents failing to answer all survey questions.
