**FISCAL YEAR 2003
OCCUPATIONAL FOLLOW-UP STUDY
OF FISCAL YEAR 2002 GRADUATES**

Introduction

As part of an ongoing accountability and program improvement initiative, Lincoln Land Community College annually conducts a survey of occupational program graduates. This report provides information on graduates of occupational programs regarding the effectiveness of their community college experiences. Graduates are asked to complete a standardized survey instrument that addresses attendance objective, education status, employment status, salary, employment start-up, geographic location of employment, and satisfaction with employment and components of the educational program completed. Data gathered from these surveys provide valuable information for the College's program review process and assists the college in providing for satisfactory employment and compensation for their graduates.

The Illinois Community College Board identifies the programs that must be included at each local campus. For the fiscal year 2003 study, seventeen occupational programs were identified: **Business General, Accounting, Financial Management and Services, Funeral Services and Mortuary Science, Quality Control and Safety Technologies, Mechanical Engineering Related Technologies, Miscellaneous Engineering Related Technologies, Health and Medical Laboratories Technologies/Technicians, Ophthalmic/Optometric Services, Home Furnishing and Equipment Installers and Consultants, Library Assistant, Plumbers and Pipefitters, Heating, Air Conditioning, and Refrigeration Mechanics and Repairers, Drafting, Graphic and Printing Equipment Operators, Precision Metal Workers, and Design and Applied Art.** Lincoln Land Community College elected to include all occupational programs in the follow-up survey. Former students who completed occupational programs during fiscal year 2002 (summer term 2001, fall term 2001, or spring term 2002) were mailed surveys. If a graduate did not respond to the initial questionnaire, a second survey was forwarded. If the second survey was not returned, LLCC Workplace Learning staff and department chairs attempted to contact the graduate by phone.

A total of 933 LLCC former students were surveyed in March 2003. Four hundred thirty-three persons responded, yielding a response rate of 46.41 percent. As illustrated in Table 1, the Truck Driver Training CDL Advanced Program accounted for the largest group of the graduates responding. Because overall results are influenced by program size, the data reported in Tables 1 - 21 are provided by program category. Table totals will vary due to some respondents failing to answer all survey questions.

Occupational Follow-Up Response Rates by Program
